67" L. 16.17" W. 1.84" D. ; Designed by a team of German-based instrument-makers, a tight combination of key functionality and technical design detail has resulted in an exciting musical instrument that is equally at home on stage and in the studio. The bladed star pick profile enables performers to explore a wide range of textures and musical choices. The lightweight, solid construction of this kit allows for extended performance and ensures durability. The Casio Performer series has already received much recognition in the last years. It is not only noted for its unparalleled playing quality, but also for its outstanding build quality. Casio's Performer series has undergone continuous development ever since its introduction in the early 1990s.

Numerous new features have been added over the years, resulting in a wide range of valuable options. The newly released SP-300 is a true classic in its own class. This compact instrument features the new features and capabilities of the SP-300 as well as the latest updates from the entire Performer line. The SP-300 offers unparalleled playing quality. Unlike many other electronic keyboards, it features the premium touch-sensitive keyboard, the long-lasting SPG and a wide range of fun features.

For instance, it features six user-programmable control wheels for controlling the filter, reverb, pitch or other important parameters. The Performer SP-300 is available as a system with the compact and transportable SP-160 sound module. This sounds great and is easy to carry. The Performer SP-300 has two Programmable Polyphonic Memory banks (80 programs). The first bank stores sounds for its various tone shapes, while the second is used for custom sound creation. The SP-300 is also equipped with a Built-in Intelligent Instrument Learning function. This means you can effortlessly recall stored tones and effects even when you don't know the sounds' names. The SP-300 is a key-less instrument and you don't need a separate key. The SP-300 features a built-in headphone output for private use. The built-in headphone jack is perfect for practicing, as well as for live performance. If you are playing in a small, dark area, the sound is clearly audible even when there is no microphone in front of you. With its wide selection of modes and convenient control panel, the SP-300 is a perfect companion for both live and studio use. Casio's Performer series 82157476af
